her having a good opinion of the defendant's character in the cemetry of his nativity.

"In giving seneral character in favor of a prisoner on trial, the witness may askipt in evidence the centers on which he gives that character." I ManNally's ev. 322, 373. See also epinion of the Court of Appeals in the case of Cancemi.

It is settled law that a witness cannot be examined as to any sistence collecting him. (I Starkie's Ev., 184; I Phil. Ev., 21; Harris va. Wikne, 7 Wendell, p. 58.) But if a question relative such a fact be put and answered, evidence cannot afterward to such a fact be put and answered, evidence cannot afterward be adduced for the purpose of contradiction. (Starkie's Ev., 194; 200, 63; 2 Starkie's N. P. C., 184; 2 Gaillean, 53.)

When a witness, on his cross-examination, denice a perticular het going to impeach his general character and credit, witnesses cannot be called to contradict him. (Spennelly v. De Williott, 7 East, 108; Lawrence vs. Barker, 5 Wend., 30; Harris vs. Wilsent, 7 Wend., 51; I Starkie's Ev., 19, 56; 448.)

THE HARLEN RAILEOAD DIFFICULTY.

THE HARLEN RAILEOAD DIFFICULTY.

The New York and Harlen Raileoad Company ast. The Mayor, Ac., of New York and the Metropedian Poince Commissioners. This wave was continued to day.

Mr. Busteed argued the cause for the defendants The Corporation, and Mr. Field spoke in behalf of the Beard of Police.

SUREOGATE'S COURT-JULY 12 - Before EDWARD C.

West.

The will of Vanedelwick Beaupland, deceased, was admitted to probate on the production of a duly exemplified copy thereof from the Surroyate's Court of Mortis County, N. J. Dr. Jains S. Theband of this city being named one of the executors of the will, the Surroyate ordered letters testamentary to be inseed to him.

The festator was a wealthy Franch

be leased to him.

The festator was a wealthy French gentleman residing in New Jeroy, his estate exceeding \$300,000, a considerable portion of which is invested in this city, in stocks and other securities. The whole estate is disposed of by the will of the testator, smean his immediate family cunnections. Mr. Gastavas J. Theband appeared for the executor.

The wills of Jonathan Miller, Harman H. Height mann and Henry Witscalef, deceased, were admitted to wrokey.

The wills of James Williams and John McCourt

were effered for probate.

SUPERIOR COURT-SPECIAL TERM-July 12-Before Judge

Arthur Finnegan agt, David S. Draper et al.—I should have no difficulty, under the circumstances of the case, in allowing a discount reached payment of costs down to the time of plaintiff a ciler to discount new, but the defendants have a right to a reference to inquire as to damages austained, if any lave necessarily resulted from the hymotion. Order scourdingly. Upon the report the whole question can be decided.

Before Judge Woodbry.

David Banks agt. John Patten, jr., et al.—Case restied.

Friend agt. Townsend.—Case settled.

Friend agt. Townsend.—Case settled.

BROOKLYN ITEMS.

NEW VILLAGE HALL AT OYSTER BAY, L. L.-On the occasion of celebrating the anniversary of our National Independence, at the village of Oyster Bay, Long Island, on the 5th iest., a substantial and handsome edifice, just erected through the liber-ality of Dr. Strew, for the purposes of a village hall, was dedicated with appropriate ceremonies. The Hon. Wm. T. McCoun presided, and explained the objects for which the meeting was gathered, and proposed as s name for the new building "Independence Hall," by which name it will hereafter be known. After an impressive prayer, by the Rev. Mr. Jackson, the Declaration of Independence was read by Joseph H. McCoun, esq. The festivities of the inauguration of the new Had were closed with a patriotic address by James M.

ARANDONMENT -- Mr. Edwin Whitefield, an artist, Erglish by birth, some three years ago abandoned his family (a wife and seven children), and has since done httle er nothing for their support. When last heard from he was in the Northwestern States. Mrs W. is living in Rodney street, Williamsburgh, in extremely reduced circumstances, owing to this neglect upon his

Inquests .- Coroner Spell held an inquest yesterday afternoon on the body of Simon Waller, who died at No. 63 Graham avenue, enddenly, and it was at first supposed by poison, or maltrestment of the physician. The evidence taken before the Corner showed that some months since he had accidentally swallowed a fish bone, which lodging in his throat had produced so inflammation and consequent stricture. He had suffered from this for some time, when an operation was performed with a where to relieve him. After the operation was performed with a value to relieve him. After the operation he was placed in the care of Dr. Junghamsen, who administered opiates for his relief; a solution of morphine was directed to be given at intervals, and if he felt better, the done were to be discontinued. His friends, perceiving the good effect that had arisen from the first done, concluded to give the habance, without taking the advice of the attending physician. He does not not. The Jury of inquest returned a verilet that the decased came to his death trough accelerating the relief of an average of morphine administered through accelerant and stopicity of the friends, and exonerating Dr. Junghamsen from all blame.

The affair of the death created considerable excitament, as

ment and stoppinty of the friends, and exportance of the harves from all bane.

The affair of the death created considerable excitement, as some of the friends of the deceased thought that it was the result of unashiful treatment on the part of the dector. Deceased being a German, and the deep revealing that the deceased had come to bis death by some malpractice of the doctor in attendance, it was with the utmost difficulty that they could be grevented from using violent measures toward him. Coroner Spell ked grevent difficulty in obtaining what facts were necessary as the inquest, owing to the excitement.

Coroner Such held an inquest, resteading afternoon, upon the body of Edward Prior, at No. 89 South Seventh streat, who died on Sunday last from hemorrhage of the langs.

THE COURTS.—Judges Lott and Emott were both cased yesterday in Special Term-one occupying the Gormon's races and the other the Signeme Court obsumber.

Judge Month was expected in Chamber buildess during the

merains.

The July Term of the City Court, before Judge Culver, was commenced. A Petit Jury was impanueded with on difficulty. Twenty cares will be called each day, and no reserved causes will The entry cares will be called each day, and no reserved calles will be taken up.

The first case called was that of John Bensett art. The City of Brooklya, being an action for damages. It appears that plans iff is the prayer to a livery stable in South Sixth street, Z. D. In 1853 the City sotherties built a house for Engles Company No. E. In the Spiling of the following year there was a accession of heavy rains, which filled and overflawed the statem constructed under the Engles House as the water percolating through the quickeand, rain into a determ under the stable, under an integer to the stable of the property of the stable of the property of the part of the plaintiff had not yet been concluded. The case will probably be concluded to day.

The case will probably be concluded to day.

Escaped from the Cells.—John Diegan, who was arrested in Sinday morning on a charge of assails and battery, escaped from the cells of the Sixth District Station House during the afternoon by creeping through the wicket hole in his cell door. He was captured sain yesterday afternoon and held to ball to swit examination. He was in company with two men named Afflick and Cole on the night of the afray, and took occurrent to essaint Afflick in a severe manner, bearing also with his fist and a stone which he used as a stone short. Afflick was severely bruised, but no serious injuries were sustained.

MARRIED.

FERGUSON-BELLAMY-In Newton, Mass., on Toesday, July 6, by the Rev. Theodore Parker, J. L. Ferguson to Miss Ads. A. Bellamy, both of New-York City.

DIED.

CHAMPLIN-On Sunday, July 11, Mrs. Effzsbeth Schuyler Champins.

The friends of the family are respectfully invited to attend her funeral, without further invitation, this day, 19th July, at 5 o'clock p m, from her late residence, 18 Washington place. COX-In this city, on Saturday, July 10, Mariah Cox, aged 36

Hamilton, son of John C. Hamilton, aged 23 years and 8 mooths.

MONDAY, July 12-P. M. Business at the Stock Exchange shows a fair increase to-day in the aggregate of transactions, and the market maintains its rising inclination up to the close of the day, though not active for any particular Stock, and showing as yet but the gradual turning of sentimert in the street and at the Stock Board, from gloomy and bearish views to the more cheerful and hopeful opinions of the bulls. The hot weather acts a versely upon this advancing tendency of the market, but taking this unfavorable feature into consideration, we have certainly a strong and encouraging tone a; the Board, and a fair prospect of improving prices and increased movement. The transactions in State Securities were quite large in the morning, and especially in Miceouri 6e, which, with sales of \$56,000, were firm at from 851 a 851. In Tennessees, Virginias and Californias there was also a very respectable business done, at improving quotations. The new Minnesota 8 P cents sold at 105-a rise of 4] P cent from the price at which they were taken a fortnight since by proposal. The investment demand for good city bonds, outside of the Board, has increased since the distribution of dividends on the 1st inst., and there are now but few lots of really desirable city securities in the market. Within the last ninety days nearly a million of dollars of the issues of Chicago, St. Louis and Louisville have been absorbed for the Eastern market. Considerable sales of Chicago's have been made also for the London muket.

The state of the date contained section of the land of the state. The state of the date of the state. The state of the day was the marked decided by the state of the state of

nexts, but with the dissipation of the war clouds, appear to have regained a degree of confidence which has been much strengthened of late by more favorable accounts from two or three of the leading railways at the West. In the afternoon prices were a little irregular, showing further advances in Michigan Southern and Toledo, but a fractional decline in New-York Centrel and Rock Island. At the close of the session & slight dullness was perceptible, but upon the promulgation of the Bank statement prices were again firmer, and is fival transactions were quite strong. The list of sales for the day makes a very respectable show, as compared with the registered transactions for two or three weeks back, and the market seems to be throwing off that tone of hopeless langour which was so prominent a characteristic a few days since. The closing prices were, for New-York Central, 84; a 85; Erie, 194 # 1; Galena, 881 # 1; Rock Jeland, 751 # 76; Reading, 46181: Hadson River, 27181; Michigan Southern, 234 #4; Toledo, 354 #36; Panama, 1044 # 105; Pacific Mail, 794 #4; Milwaukee and Mississipp', 20 #4; Michigan Central, 59 #4; Cumberland, 18 #19; Missouri 6s, 85 8 1. &c.

The business in foreign bills for the Wednesday steamer has thus far been light, but rates are very strong. For brokers sterling signatures 9] #9; \$\text{\$\text{cent}\$; first-class} commercial and bank names, 97 297 F cent. France, 5.15 a 5.12]. The supply of private bills is quite limited and the demand unimportant. To a Springdeld correspondert we reply that all Starling quotations are for

sixty day bills, unless otherwise expressed. Freights are dull. To Liverpool 20,000 bush. Grain at 41 05d., in bulk and bage; 2,000 bbls. Flour at 1s. 6d.; 500 bales Cotton, balf compressed, at 3-16d. To London, 200 tuns Oil-Cake at 16s.; Oil at 29s. Cloverseed at 20e.

The business of the Sab-Treasury was: Receipts. \$224,086 75-\$161,000 from Customs; Payments, \$158,-353 86; Balance, 5,407,980 30.

The Bark statement of the week must be considered as a favorable one, as showing a decrease of loans and deposits and an increase of specie strength. The irregularity, however, with which the statement is made for those weeks in which holidays occur renders the figures of but little value for comparison. It is evident, however, that the Banks have strengthened their position during the past week. A portion of the decrease in loans is due to the large sales of Treasury Notes and State Stocks during the week, upon which the Banks had made loans. The specie line has received accessions from Beston and the interior more than sufficient to counterbalance the foreign shipments. Another arrival is due in a day or two, which will carry the aggregate to \$36,000,000. In circulation there has been no important charge. In the actual deposits the figures show a decline of \$1,274,600, and the unreliable character of the returns this week is shown by this fact. The figures of the statement will not prove. There should be so such falling off, as is shown by the other items. The comparison we make, however, as a maiter of form, as fellows:

The following is the condition of the Banks of the City of New-York, July 6 and July 12:

The Superintendent of the Bank Department, Mr.

Cook, has decided that the law requires the bank returns to be made up to Saturday morning. The practice of the banks has heretofore been irregular, some of them including the business of Saturday. It is to be hoped that hereafter there will be entire utiformity in this respect.

The movement of the Banks since Nov. 1, 1855, has | in the C

A dispatch from Cairo of the 5th says that the trains on the Illinois Central Rathroad were again running into

column of the Real Estate Saving Institution of St. Louis, which is published for the information of Esst-

ern depositors. We annex the letter of Gov. Randall of Wisconsin to Mr. President Stanton of the La Crosse Road, to which allusion was made in the stock paragraph. This is, no doubt, the information upon which the recent bear sales of the Land Grant Bonds have been made. The Governor, it will be seen, takee the ground that the road must be commenced at Madison, and that until twenty miles from that city are completed he will give no land certificates or deeds:

EXECUTIVE OFFICE, Madison, Wis., June 28, 1858.

N. P. Stanton, e.q., President La Crosse and Milwanke Railroad Company.

Sir: I have received from the Secretary of your Company's preamble and resolution adopted by your Board of Directors on the 31st day of May, in regard to the land grant to the Milwanke and La Crosse Railroad Company, sad in regard to my duty in the premises. Your preamble, as an inducement and explanation, is followed by the resolution which I here quote, viz:

note, viz:

Resolved, That the President of this Company he requested to conter with the Governor of this State on the subject, and request

Escalved. That the President of this Company he requested to conter with the Governor of this State on the subject, and requested thin to issue to the Secretary of the Interior a certificate of the completion of the third twenty miles of said road and also to request him to deliver a deed of all the lands to which said Company are entitled under the provisions of said act.

I might take a technical objection here that no proper evidence has been farmished that "the third twenty miles" of the radical data been completed, or in fact that any 20 or 10 miles of the Land Grant road has been completed as required by law, even if I were to concede your construction of the axis of congress and of the act of the Landston of the Miles of the Landston of the Miles at the basis of my refeast to give the Company the certificate asked or the deed requested. I can excent an observation in the State by a patent from the General Government. I cannot give the Company the certificate saked or the deed requested. I can excent an observation of the state by a patent from the General Government. I cannot give the Company the certificate years ask for.

I have no time event if I had the inclination, to make a law

the title is first vested in the State by a patent from the General Government. I cannot give the Company the certificate you ask for.

I have no time, even if I had the inclination, to make a law argument upon the proper construction of the act of Coursess and of our kepistature. It is sufficient for me that I construct he is a to mean what I understand it rhainly says, and what the Legislature is the sufficient for me that I construct he is a to mean what I understand it rhainly says, and what the Legislature and eat of it, declared it to mean. By the act of the Legislature, following our the whear intent of the act of Courses, the Legislature, following our the whear intent of the act of Courses, the Legislature, following our the whear intent of the act of Courses, the Legislature, following our the whear intent of the act of the act of the cratico of that grant of land, and as a condition upon winh they were to receive the benefit of that grant, to hold a radiocal not from Milwankee to La Crosse, but a radiocal "from the City of Maliera, in the County of Eules, and from the Village of County of Maliera, in the County of Eules, and from the Village of County of Maliera, on the most feasible tout by the way of Fortige City to the Court, after or Lake, between townships it wanty five and thirty one, and from the ore to the west and of Lake Superior, and B Bayfeld, Act." The set also provides that the roads from Maliera and confident in the part. The time within which the State, when it arcepted the grant under the act of 1555, and is under chings to failled exact under the act of 1555, and is under chings to mild on the part, a well as the State is under chings to mild on the part, a well as the State is under ching to the law, and the time to fait expiring without compileing there were most of all the county to the west and of Lake Superior and to halfe the mild of the part is the county of Lake Superior. The half of the said radiood, meaning the radional which it contracted to hold from Maliera and county a

by a designated route to the west end of Lake Superior and to Hayario.

The only accurity the State has or could have, that the Company would act it good faith, if it exist in great faith at all, is to belief the Company to the performance of its contract in the order required by the law. It is does of those mass where a little occurron set as worth a great deal of hearonic.

The intention of the Legislature is very chear to my mind, and I have but one rule of action to purse. The Company is not entitled to any certificate until it has completed twenty continuous miles of said road, regiment at Marison; and I shall give none, nor with I execute any deeds, even if the Government should itsee patents of the lands to the State, any faster than the rad is computed. Under the construction, I give to the law, it becomes my duty to purse this course, and I shall not besine to do it. My views have been known to the Company for nearly six menths, and the progress of the work, lapse of time and reflection, have continued the corrections of my position.

contract with the State, that has as fact as it shides the rout from Macision and Columbus to Portsac City, and beyond that his every twenty miles completed and in running order, I will give the Company is emitted and in running order, I will give the Company is emitted to the lends. I will throw no embarrasement in the way of the Company, but will did it be every measure in my power, whenever or whosever I can with propolety interfects. I never had any dispussion to injust or embarrase the fact Greater Company, estited in the building the Milwarkes and La Crosse Road or the Land Grant Road. The respit of Wisemain, with searned at exception, earnestly Cewire the property of these great enterprises. There is no disputition, and has been nous a money contentance I offered that Company of the grant, and there will not be, if good faith is manufested by the Company itself.

in monity coloritation, it is maintested by the Company itself?

The Legislature of this State has done rothing, and will do tothing, to affect these enterprises. The action of the Legislature, and the disposition of the people on these subjects, have been eathly a minumbersheed. We show that he Lund Grant net repealed. We have had exprisence enough in our past legislation upon the subject. We want the present Board of Directors to show that the local end of his board ought to have done to with Act in good fath, people the laterest of the sociaholders, later with difference, produce and contamy to build these reads and protect the fatherer, whose interests are involved, and fathil the contract made with the State under the Land Grant act, located of engaging in schemes of clouder.

Our faths that the present Board will endeavor to act for the best interests of the Company, and that the enterprises may jet the redeemed from the effects of gross later made interests at its peat session, will give all reasonable mismatagement and breaters of true, is intreasonable mismatagement and session, will give all reasonable entersions to the Company, if in the mean time the Company will farmish evidence, by its works, it housesty of purpose and good faith toward the State.

Yours, Act.

ALEX. W. RANDALL

8. Draper's regular daily anotion sale of bonds and stocks will take place to-morrow (Tuesday), at 19;

stocks will take place to morrow (Tuesday) at 192 o clock at the Merchante Erchange.

The commercial items of intelligence brought by the steamer Fulton, as reported by telegraph, are important, as indicative of a slight revival of breiness in the Cotton market and in the manufacturing districts there was more activity and an alvance in prices. These symptoms of returning life are suggestive of more active movements in the machinery of trade throughout the commercial world—they are the strate which show the direction of the great current of trade, and as such may be read with real satisfaction. Any more vigorous movements of the system which will serve to scatter the unwielfly blocks of torpil capital from stagrant centers through the channels of business. from stagrant centers through the channels of business to warm up the paralyzed extremi les of the country, will be welcomed throughout the land. We cassed be very distant from a change of this character.

The Hartford Times states that the affair of the Bank of North America. Seymour, Conn., are coming out better than was expected. After paying the note-

upword of 5,000 tuns. The Lebigh Valley Railroad sained 1,370 tuns, but the canal loses 2,330 tuns. The Screnton trade South has increased this very 80,000 tuns, while the trade North has diminished 35,000 tuns. The trade continues to decrease weekly compared with last year, and the loss for the case from the above-needlound remost the year, as for, has reached sove-meritoned regions this year, so far, has reached 3.872 tune.

The Northern Central Railroad has been opened to The Northern Central Rullroad has been opered to Sunbury, and new connects with the Soamekin and Sunbury Rullroad, which gives that region access to the Scuthern marks thy rullroad. The toll and freight from the Shamokin region to Baldimure has been fixed, by arrange ment with the Shamokin Rullroad, at \$2.50 \$\tilde{v}\$ this from all the collectes in the Shamokin region, thus placing them all on an equality. The toll and transportation from Sinbury to Baldimore is \$2.20 time. The toll on coal from Millersourg, the terminus of the Ly kers Valley Rullroad, has been reduced from \$2.10 to \$1.90 \$\tilde{v}\$ tim. The charge from Pinegrove to Baltimore remains as heretofore, \$2.10 \$\tilde{v}\$ tim. The Shamokin operators anticipate a considerable market for their coal South by this route.

The people of Port Clinton held a large meeting at the Court House, on Saturday, to take into consideration the action of the Board of Directors of the Cleveland and Toledo Railroad Company, in reference to the abandonment of that portion of the Northern division of the road running west from Sandusky to Toledo.

of the road running west from Sandusky to Toledo.

The Philadelphia Lodger says:

Some little feeling was manifested on Saturday, when a report obtained circulation that the Sunbury and Eric Railroad Company, to whom the Logislature, at its late seasien, had conveyed all the State Cauvis, had resold the Delaware civision to a company of ten or twelve of our leading espitalists, namely, J. V. Williamson, A. S. & G. Roberts, A. G. Fell, E. W. Clarke & Co., Wm. Lorgatreth, the Mesers, Borle, Charles Henry Fisher, Judge Hepbarne, Ephraim Marsh of New Jerrey, and some others. Included in the list, we are told, there are five Presidents of Bunks, Railroads and Canal. The persons named are of unquestioned means, and wholly unexceptionable as purchasers on the score of ability and probiny of character. The price stipulated to be paid is \$1,775,000, payable es follows:

Mottage Bonds at \$P cent. \$1,200,000

Preferred \$P cent Stark. \$1,000,000

Ten manthly payments of \$40,000, secured by cillateric Cash, on execution of the papers. 75,000

Tolen, on execution of the papers. 75,000

Cash, on execution of the papers.....

read Company was on the market win this work, the shoomeemed or Saturday that it had been sold to the parties named created surprise, because all eyes were turned to the Lehigh Navigation Company as the probable purchaser, the division being a concecting link with their works and tide water on the Delaware. It was and is considered more valuable to them then to any other parties. The capital of the Lehigh Navigation Company being large, and more in favor than that of almost any other in and about this city, the disappointness was widely extended and keenly felt. We do not know, however, if the Lehigh Navigation Company should feel that they have less a desirable beagain, that they have any but themselves to blame. We are assured that the Sunbury and Eric Railroad Company desired them to become the purchasers, and solinated them to make an offer by agreen day, as other parties were negotiating with them and wished to conclude a contract. The Lebigh Navigation Company desired them to fire made them, and a disposition of the Division being necessary on the part of the Sunbury and Eric Company, a sale has been made as above stated. Since the fact became known, parties on behalf of the Lehigh Navigation Company, we are informed, have offered \$2,000,000—an excess of \$15,000 of the price to be paid by the association of gentlemen named.
